**June 2011** – Carpinteria, CA - BEGA-US is proud to announce the introduction of 26 new high performance LED pole tops, created to bring the consumer excellence in design, quality, performance and sustainability. Following are just a few key features:

- All luminaires are furnished with high performance LED modules and drivers, with a rated life >50,000 hours based on the IESNA LM-79 standard. After 50,000 hours BEGA LEDs do not fail, but continue to operate with a luminous flux  $\Phi$  of at least 70%.
- Standard 5000K color temperature for all luminaires, with an option to specify 4000K or 3000K.
- All LED modules are specifically coded from the factory. At the end of life, BEGA-US offers replacement modules that provide the identical luminous flux and CCT operating characteristics.
- An expanded limited warranty applies to all LED modules and drivers. All LED components are warranted to be free from defects in material and/or workmanship for 5 years from the date of shipment.

UL listed, suitable for wet locations. Finish: Black (BLK), White (WHT), Silver (SLV) and Bronze (BRZ). Depending upon fixture, protection class is IP54, IP65, or IP66.
