January 2011 – Carpinteria, CA - BEGA-US is proud to introduce a stunning family of ceiling luminaires, all using high quality, high efficiency LED sources! Form and function meet perfectly to provide the highest levels of optical performance and design aesthetics. These luminaires are especially suitable for illuminating walls or architectural details.

The handcrafted beauty of LIMBURG hand-blown 3-ply opal glass and the virtues of high quality solid state sources combine to deliver impressive, uniform illumination. Multiple designs and mounting configurations are available with symmetrical or asymmetrical light distribution. All units feature High CRI, high luminous flux multi-chip LED modules.

LED color temperature is standard in 3000K. Dimming option is available for all 13W units. Please consult factory for dimming options for 6W units. Satin matte with screw neck. Finish aluminum painted silver RAL 9006.

A shallow, stainless steel, 45° swivel canopy designed for stem mounted pendants is available. Ideal for use on sloped ceilings and in seismic areas.

UL listed, suitable for damp locations.
