September 2008 - BEGA/US is pleased to introduce this new incarnation of a BEGA Classic. This shallow and sleek luminaire provides widespread, uniform illumination from compact fluorescent sources. Available with two lamp configurations to meet a diverse set of pole height and lighting requirements.

The lower slip fitter is made from a single die-cast aluminum part which includes four support arms and the lower diffuser frame. The fixture slip fits a 3" O.D. pole top or tenon. The top portion of the lamp housing is made from heavy gauge spun aluminum. The molded 3/16" white high impact acrylic lens is completely sealed for weather tight operation.

Universal voltage (120V through 277V). Minimum start temperature of 0°F. Available in five standard BEGA colors: Black (BLK), White (WHT), Bronze (BRZ), Silver (SLV), and Eurocoat (URO). U.L. listed, suitable for wet locations. Protection class: IP 65.
